Hon. Commissioner for Patents  
Washington, D.C. 20231  
ATTENTION OF LICENSING AND REVIEW

Declaration in response to a notice of patent application being  
"useful in the production or utilization of special nuclear  
material or atomic energy" pursuant to 42 U.S.C. § 2182.

Dear Sir:

In response to the notice of patent application being "useful in the production or utilization of special nuclear material or atomic energy" pursuant to 42 U.S.C. § 2182, the time for responding being September 29, 2002, Applicants Representative submits the following declaration prepared by the inventors of record of the above-referenced patent application:

We, Peter J. Connolly, Stuart Emanuel, Robert H. Gruninger, Shenlin Huang, Ronghui Lin, Steven A. Middleton and Steven K. Wetter, all inventors of the above-referenced patent application and employees of Johnson & Johnson Pharmaceutical Research and Development, LLC, having a principal place of business at 1000 U.S. Route 202, Box 3000, Raritan, New Jersey 08869-0602 declare and state as follows:

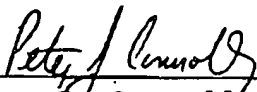

1. We, Ronghui Lin, Peter J. Connolly, Steven K. Wetter, Shenlin Huang, Stuart Emanuel, Robert H. Gruninger and Steven A. Middleton, are the inventors of the above-referenced patent application entitled "Substituted triazole diamine derivatives as kinase inhibitors", U.S. Patent Application No. 10/029,750, filed on December 21, 2001.
2. The above referenced patent application was made, prepared and filed with the assistant of our Legal Representative as employees of Johnson & Johnson Pharmaceutical Research and Development, LLC, an affiliate of Ortho-McNeil Pharmaceuticals, Inc., one of the Johnson & Johnson Family of Companies.
3. The invention was made within the scope of our employment duties, during working hours with the use of facilities, equipment, materials, funds, information and services of Johnson & Johnson Pharmaceutical Research & Development, LLC.
4. To the best of our knowledge and belief, the invention was not made or conceived in the course of, or in connection with or under the terms of any contract, subcontract or arrangement

entered into with or for the benefit of the United States Atomic Energy Commission or its successors; Energy Research and Development Administration or the Department of Energy nor was the invention made (conceived or first actually reduced to practice) under nor is there any relationship of the invention to the performance of any work under any contract of the National Aeronautics and Space Administration.

5. The present invention relates to pharmaceutically active compounds useful for controlling diseases, such as for example, cancer.
6. The undersigned declare further that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Signed this day of September, 2002

Respectfully submitted,
